Sorry for not getting back to you earlier - I was in Pittsfield Superior Court all day today. Yesterday I found out that the Springfield case was cancelled (continued?), and today I received the following email indicating that I do not need to appear in Northampton, so I'm definitely available for your case in Orange tomorrow. Your summons indicates that I need to be there at 8:30 - is this correct, or would a different time be better, or even on-call? (I realize that this email is being sent quite late so if I don't receive a response I will plan on being there at 8:30) Also, on the slim chance of bad weather and UMASS either closing or having a delayed start (the lab follows what UMASS does), I'll be coming from my house in Northampton, so if you need to reach me in the morning you can call me on my cell at [REDACTED]. Thanks.

Sonja

Hi Sonja,

I am expecting a disposition on both of these cases tomorrow. Therefore, you do not have to appear. Thank you very much.

Sincerely,
Joella Fortier

ADA Fortier-

I wanted to let you know that I received your summons for the [REDACTED] trial ([REDACTED] [REDACTED]) scheduled for February 24, 2010. However, I already have a Springfield District Court case scheduled for that day. A huge majority of the Springfield District cases I have received summons for have either pled pre-trial or have been continued, so I was not required to appear in court. Therefore I am not sure if your case will be in conflict with the Springfield one - I'll keep you informed if I hear anything about that case.

-Sonja
